## WIPER BLADE COVER REMOVAL

**This bulletin has been amended. Applied Vehicles and Applied Dates has been updated.  
Step 2 of the Service Procedure has been amended.  
No other content has been changed. Discard all previous versions of this bulletin.**

**APPLIED VEHICLES:** 2009 Altima (L32)  
2009 Maxima (A35)  
2009 Murano (Z51)  
2009 GT-R (R35)  
2009 370Z (Z34)

**APPLIED DATES:** Altima vehicles built after 12-Dec-08  
Maxima vehicles built after 12-Dec-08  
Murano vehicles built after 3-Nov-08  
GT-R vehicles built after 3-Nov-08  
370Z vehicles built after 3-Nov-08

### SERVICE INFORMATION

- The Applied Vehicles above have wiper blade covers installed on the wiper blades at Nissan Plant facilities before the vehicle is shipped for sale.
- The wiper blade covers protect the wiper blade and prevent wiper blade damage during vehicle transportation and storage.
- These covers should remain on the wiper blades until the vehicle is sold.
- Wiper blade covers must be removed from the wiper blades before the vehicle is delivered to the customer.
- See the Service Procedure on the next page for wiper blade cover removal information.

Nissan Bulletins are intended for use by qualified technicians, not 'do-it-yourselfers'. Qualified technicians are properly trained individuals who have the equipment, tools, safety instruction, and know-how to do a job properly and safely. NOTE: If you believe that a described condition may apply to a particular vehicle, DO NOT assume that it does. See your Nissan dealer to determine if this applies to your vehicle.

## SERVICE PROCEDURE

1. Hold the wiper arm and lift the wiper away from the windshield.

Figure 1

### CAUTION:

- DO NOT lift by holding the blade.
- This may deform the blade and reduce wiping performance.

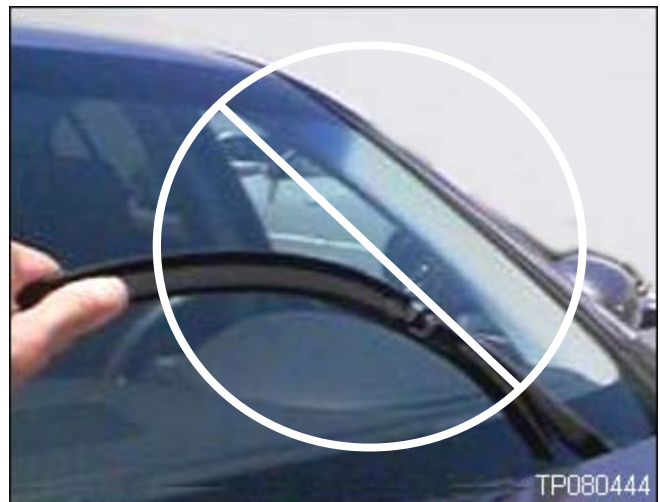

Figure 2

2. Slide the wiper cover off of the wiper blade as shown in Figure 4.

**CAUTION: For Altima and Maxima, the cover must be removed towards the driver side as shown in Figure 4.**

- The wiper cover for the Altima and Maxima has a stopper that will prevent it from sliding towards the passenger side.
- Sliding the cover towards the passenger side on the Altima and Maxima will damage the wiper blade.
- Murano, GT-R and 370Z do not have a stopper on the wiper cover and it can slide to both passenger and driver side without damaging the wiper.

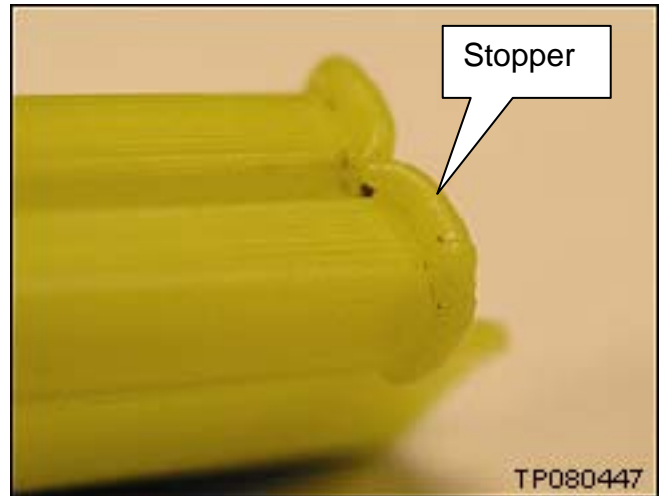

Figure 3

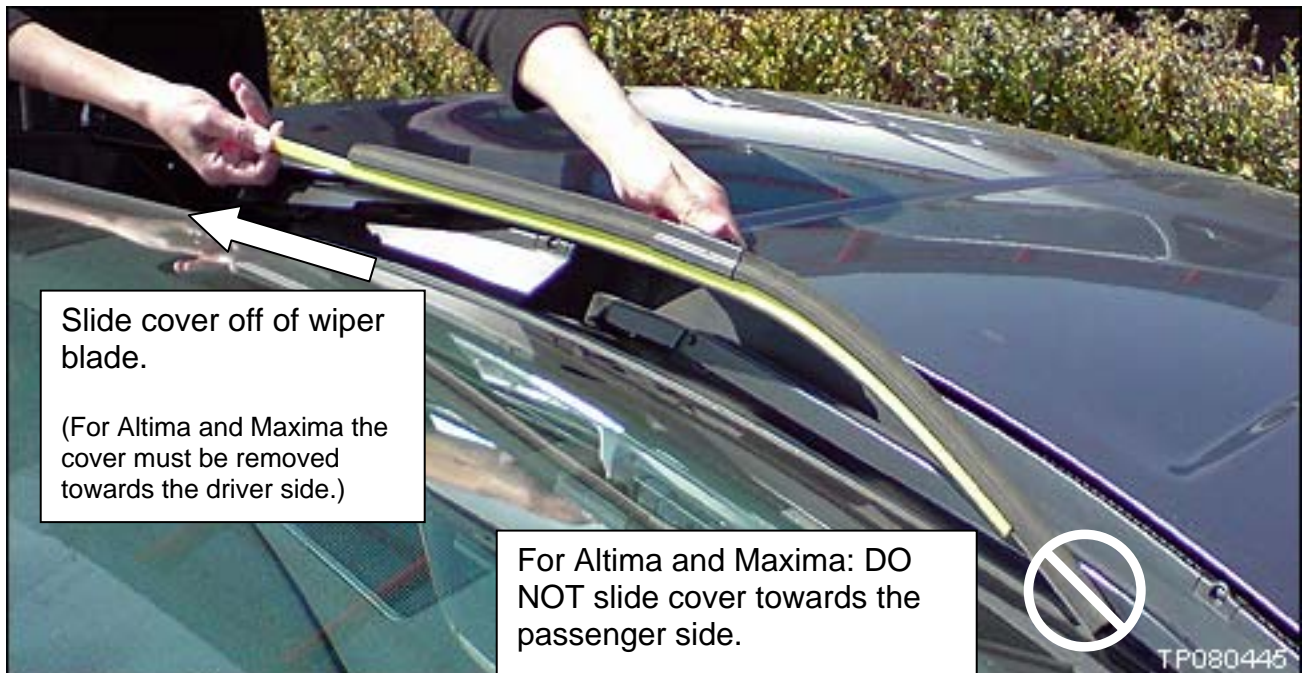

Figure 4

- Carefully lower the wiper blade onto the windshield.

Figure 5

- Perform steps 1, 2, and 3 for both wiper blades.

### **Other Wiper Cover Information**

- If the wipers are operated during transportation and storage, the wiper covers may move out of place as shown in Figure 6.
- If for any reason you need to operate the wipers before the vehicle is delivered to the customer, make sure the wiper covers are properly installed and will not interfere with wiper operation.
